WORK EXPERIENCE

FRONTEND DEVELOPER - ZENVIA

Zenvia Conversion | may 2022 - Current

- Development of new features for Zenvia Conversion product (CRM) while maintaining and updating legacy code, ensuring backwards compatibility and meeting quarterly goals
- Successfully leading and ensuring delivery of a new ChatBot service.
- Integration and maintenance of communication channels using Kafka, webhooks, RESTful APIs.
- Constant quality control of the main frontend application by raising issues (UI and performance related bugs, technical debt) and fixing them.
- Pair programming, performing code reviews and enforcing companies practices, as well as general programming good practices.
- Effort analysis performed for specific features or issues across several sprints and breaking them down in smaller tasks for easier development.
- Solving issues raised both by clients, other teams, and closely collaborating with them (Support, Site-reliability Engineering, Product, QA).
- Documentation production for Conversion.
- Recording demo videos in English for new feature releases and solved issues.

Tech Recruiter | Sep 2020 - May 2022

- Worldwide IT Hunting & Recruitment processes.
- Technical and behavioral interviews.
- Coordinate with IT team leaders to forecast department goals and hiring needs

TECH RECRUITER - WOLOX - PART OF ACCENTURE

Wolox | 2018 - 2020

Wolox Executive Assistant to CEO | 2018 - 2019
